Data Notes:

- -Data obtained from the Missouri Department of Health and Senior Services Adult Blood Lead Epidemiology Surveillance (ABLES) Program
- -Other Race includes: Asian, Pacific Islander, and Native American
- -Counts based off of small cell counts of 0, 1, 2, 3, and 4 have been suppressed to protect patient confidentiality. In some cases secondary suppression was used to suppress rates based on cell counts >4 to prevent reverse calculation of totals to identify small cell counts.
- -*Preliminary data
- -µg/dL stands for micrograms per deciliter
